

### Overview

On the 22nd May 2016 from 5.00 - 6.00 BST (12:00 - 1:00 AM EDT), Clicktools users may experience brief service interruptions as we make key updates to the Clicktools application.

## Maintenance update

The following update is being applied:

| Bug     | Comment   |
|---------|---|
| SUR-311 | Previously when a Salesforce mapping contained a 'Null' field it was making it impossible to view a mapping section but we have corrected this issue.     |
| SUR-338 | Scheduled deployments security update.  |
| SUR-600 | Corrected broken url issue when adding a Clicktools annotated URL in an Email Template using HTML and changing the protocol.                              |
| SUR-651 | Salesforce "High assurance session" when turned on stops Clicktools from reading the report in Salesforce. Warning message will now be displayed to User. |
| SUR-657 | Double queueing size for scheduled reports.   |
